Why I'm Running

Through my time in the private sector, I have earned a reputation as someone who brings people together to find solutions to challenging problems. Trenton continues to make it a challenge to live or work here with an unfavorable tax and economic climate. I have always led by example to make things better in my community. Therefore, I am seeking the 25th Assembly seat to find bold solutions to these and other challenges.

Top Policy Priorities

- Sensible, transparent government that balances budgets, reduces costs and lowers debt
- Lowering property and income taxes
- Growing economic opportunities for all; attracting people and businesses to New Jersey

About Me

Both growing up in New Jersey, my wife and I settled in Bernardsville a few years ago. I have worked in the biopharma sector for over ten years, where the team I am part of has helped launch breakthrough cancer treatments, and we work tirelessly to ensure patients have access to these medicines. Previously, I worked on GOP campaigns throughout the country, including on Senator McCain's and Mayor Giuliani's Presidential campaigns. I have an MBA from Georgetown University and B.A. from The College of New Jersey, and serve on Somerset County's Open Space Advisory Committee.
